THE LAST NINETY DAYS OF THE WAR IN NORTH CAROLINA.—BY CORNELIA PHILLIPS SPENCER. 1866.

The Charleston *Courier* pays the following merited tribute to the popular work of Mrs. Spencer:

This little volume is one of a most interesting class which we greatly desire should be increased by additional volumes, illustrating the progress of the war, and the character of the political sentiment in all the Southern States, and all their sections, as well, as fully and as vividly portrayed as this of North Carolina.—We do not know who Mrs. or Miss Spencer is, but she deserves high commendation for the good sense, just discrimination, good taste and graceful style with which the work has been done.

You have here a complete picture of the last ninety days of the war, as developed by the events in our sister State, and all that the author has proposed to herself and to the public in her title page and preface, she seems to us to have executed to the letter. There may be found hereafter many minor details not here set down, but these, we apprehend, will not disturb any of the generalizations of this volume, but only serve to confirm them.

The narrative is sufficiently copious of those closing scenes which culminated in the surrender of Johnston's army. The writer has evidently drawn from the best sources of authority, and there is an air of candor pervading the work which must make itself felt by every reader.

It is not the least valuable feature of the volume that it contains so large a body of correspondence, official and semi-official, which is new to the public, and which could only have been secured to the public by the writer's intimacy with the chief men of what was once the Republic of North Carolina. It is an evidence of the author's claims to our regard, that she was prompted to the performance by the Hon. D. L. Swain, L. L. D.; and if his name needed any support outside of the boundaries of the Old North State, it is to be found here sufficiently in the body of the volume, in the very interesting original letters which are happily incorporated with the narrative.

Here you have the original correspondence of Gov. Vance, Bishop Atkinson, ex-Governor Graham, Dr. Swain and others, all replete with interesting details, and even more interesting suggestions. It is not the least attractive feature of this book that the writer drawing from ancient authorities, runs a parallel between the British and American ideas of the rights of war, and of "military necessity," as illustrated by the several progresses over the same region of the country, of Lord Cornwallis and Gen. Sherman, at intervals of ninety years of time. These parallels afford the reader a very curious commentary upon what is humorously and sarcastically styled "the progress of civilization."

On these and many other accounts we commend this well conceived and and well prepared volume to the consideration of our readers.

Schools in North and South Carolina for the Orphans of Confederate Soldiers.

"COLUMBIA, October 19, 1866.

Miss M. A. BUIE, so favorably known during the war as the "Soldier's Friend," is engaged in the attempt to found a School for the orphan children of Southern Soldiers. She proposes that contributions for this purpose should be placed in the hands of some gentlemen of this State, to be appointed by the Governor, and that the School shall be located in some desirable portion of the South. I commend this laudable undertaking to all charitable persons, and I wish that the amplest success may reward the patriotic efforts of Miss BUIE.

WADE HAMPTON."

"I concur with Gen. Hampton in commending the benevolent enterprise of Miss Buie to the favor and patronage of the generous, liberal and philanthrophic. Her life thus far has been devoted to acts of kindness and charity, and she merits success in her undertaking.

"STATE OF S. C. EXECUTIVE DEPARTMENT, COLUMBIA, October 26, 1866.

"Miss BUIE:—I approve of your suggestion to appoint Mr. D. L. McKay, of Charleston, as Treasurer, to receive the funds and hold them for the Female School you are interesting yourself to establish for the education of orphan girls. He is a gentleman of high character, great moral worth, and enjoys the confidence of the public.

Very respectfully, your obedient servant,

J. L. ORR."

Mr. McKay accepts the office. All funds sent to South Carolina must be sent to him.

MARY ANN BUIE.

"THE PEOPLE'S NATIONAL BANK, Charleston, S. C., Jan. 8, 1867.

Dear Miss BUIE:—It will afford me much pleasure to serve as Treasurer of the School in *Columbia, S. C.*, for educating Soldiers' Orphans. You have my best wishes in the undertaking. With regard and esteem,

Yours truly,

D. L. McKAY,
President People's National Bank."

Miss BUIE begs the co-operation of all persons to aid her in this enterprise to educate and make good and useful thousands. All donations must be paid to the Treasurers appointed by the two Governors. Gov. Worth says:

"You may rely on my co-operation. You ask me to appoint some suitable persons as Treasurers. I suggest Geo. W. Mordecai, of Raleigh; Wm. A. Wright, of Wilmington; Philip A. Wiley, of Fayetteville; John D. Whitford, Newbern; Jesse H. Lindsay, Greensboro; D. A. Davis, Salisbury; I. G. Lash, Salem; R. F. Simonton, Statesville; T. W. Dewey, Charlotte; Gen. Robert B. Vance, Asheville. If other names are desired in other localities, I will designate them. May you be successful in this, the noblest charity; in the use of the benevolence to which you have devoted your life.

Yours very respectfully and truly,

JONATHAN WORTH,
Governor of North Carolina."

As my appeals have appeared in the leading papers in the country, and been rewarded with great success, I beg to ask your earnest co-operation in raising means—either stock or free donations—to erect Schools in the ruined and desolated South, if all who wish to elevate society, by placing the advantage of a thorough education in reach of hundreds who have lost parents or wealth, will unite with us in plans that have met the co-operation and approbation of the Statesmen, Soldiers and Divines all over the land. I have the honor and privilege of presenting for your consideration, appeals from Gov James L. Orr, of South Carolina, and the great and good mind of Gen. Wade Hampton. Gov. Jonathan Worth, of North Carolina, co-operates with Gov. Orr, and appoints ten of the most prominent citizens in North Carolina to raise funds, and hold them, to be turned over to the Governors. At my request, Gov. Orr appointed Mr. D. L. McKay, President of the People's National Bank here, to hold all the funds raised for South Carolina for the same purpose. Gov. Worth, in his honesty and sincerity of purpose, has displayed much justice and wisdom in his official duties. Education will make the United States a great nation. "Choose wisdom, for her ways are ways of pleasantness, and all her paths are peace." Let all unite to this great purpose, and let Peace smile from ocean to ocean. In building up Schools, we are uniting on a permanent basis, lasting and true friendship, and building up the South. The capitalists everywhere are asked to subscribe to this enterprise.

The Editors of the *Sentinel* are duly appointed Agents. This School will be in North Carolina, where the most liberal offer is made, on the same plan, under the same Trustees of North and South Carolina.

THE SENTINEL.

WM. E. PELL, } Editors.
SEATON GALES. }

Thursday Evening, Jan. 24, 1867.

RADICAL BENNETT—CONSERVATIVE GREELEY.—It certainly is a strange fact that Greeley should have to reprove Bennett for radicalism. The last *Tribune* says:

"The New York *Herald* now heads the hunt for the impeachment of President Johnson.—We choose not to prejudge the evidence which may be adduced in support of Mr. Ashley's or Mr. Loan's proposition; but we beg Congress to bear in mind that the *Herald* was at least equally zealous and persistent in driving a Democratic Congress to pass the Nebraska bill, which it now (truly) declares to have been the initial, essential cause of that party's downfall. Day after day, it taunts the Democracy and "poor Pierce" with their fatal shipwreck on the Nebraska rock, though the *Herald* was itself the pilot which drove them under full headway thereon. Where shall its malicious mockery find its next victim?"

The continued circulation of Bennett's *Herald*, in the South, reflects upon the intelligence and sincerity of our people. We think the most morbid curiosity cannot justify the support which is given by Southern gentlemen to Bennett's *Herald*—a paper and a man so utterly without character, and wholly undeserving of sympathy. The *Tribune* may have gone further, and charged the *Herald* with having been one of the chief instruments in inciting and stirring up the war feeling in the South, in 1860-1.

The New York *Herald* and N. C. *Standard* have attained the bad eminence, of being reckless and unscrupulous to attain *an end*, however ruinous that end may be to others or the country.

If Southern men desire to patronize Radical papers that are honest, let them take the New York *Tribune* or the Greensboro' *Union Register*, but if they desire to be properly posted in Northern politics, and to have the antidote along with the poison, we recommend unequivocally the *National Intelligencer* at Washington and the New York *World*. These are not only the ablest, but they are truly conservative journals, and are superior, in our estimation, in character, reliability and general intelligence to any papers North of the Potomac.

Miss M. A. Buie.

The name of this lady is familiar to the readers of the N. C. and S. C. papers, during the war. She devoted herself most assiduously to the condition of the sick and wounded soldiers, going from place to place as an angel of mercy. Since the war, she has devoted herself to the one object, of raising funds to establish schools in South and North Carolina for the orphans of deceased soldiers. She has established one at Columbia, S. C. and the papers announced some time ago, that Col. Wm. Johnston, of Charlotte, had donated to her an eligible position for the establishment of a school in or near that city.

We invite the attention of our readers to her advertisement, on our first page, which sets forth partially her plan. It will be seen that Gov. Worth has suggested the names of gentlemen in this State, to receive donations for the establishment of a school or schools in this State. Miss Buie has done us the honor to appoint us Agents for the same object.

We are not as fully informed as we desire to be of her plans and of the feasibility of the scheme, but we are fully committed to the enterprise, and hope its friends will come up fully to its support.

GEN. GRANT. The *State* raises the name of Gen. Grant for the next Presidency. There are two kinds of bad paymasters it is said: one pays in advance and the other never pays. In this case, we judge our cotemporary belongs to the first class. As we are not yet invited to the wedding, we fear, if we take our seat at the feast, too soon, we shall be *invited out*. Seriously, we think our neighbor premature. If those who are more immediately interesting themselves in the next Presidential election, who are in favor of the Constitutional Union, shall nominate Gen. Grant at a proper time, we may give him our support; but we must be sure he has a safe platform in this respect, before we can commit ourselves.

We take the same position in regard to impartial suffrage. We are no sticklers for impossibilities, nor have we any groundless prejudices against colored people. The present voters of all the States are the constitutional judges of suffrage. When that question is left to the judgment of the voters of the States, they will do full justice to the colored people, and we shall be ready to acquiesce in their decision. Or when the Congress will submit any plan *as a condition of reconstruction*, that the South can adopt with safety to her own existence without dishonor, we are ready for it.

Fertilizers.

We are pleased to see the spirit with which the farmers of the State are adopting the use of fertilizers. Good, skillful tillage and the free use of fertilizers, can alone make up for any deficiency we experience, in the number of laborers. The last crop in this State, upon the whole, was a success, especially in view of the want of fertilizers. The present year there need be no lack of them. Our merchants, as the columns of the *Sentinel* will show, have made arrangements for a full supply. We hope that our farmers will use them to the extent of their ability.

We call attention to an article from a South Carolina farmer, in another column, upon the use of Guano and Plaster. The practical experience of our farmers, weighs more with the public than any theoretic discussion. The use of the phosphates and other fertilizers, is a point upon which many need information. How much to use to the acre, the crop upon which to use it, when to apply it, &c., are matters we should be obliged to any friend to enlighten our readers upon.

W. J. Morrisett, Esq., the member of the House from Camden, has been confined to his room at the Yarborough House for the last 44 days by illness. He has been unable to be in his seat in the Legislature during any part of that period, and is now unable to be in his place. But we are glad to say, that his health is rapidly improving, and hope that he will be in his seat in a few days.

For the Sentinel.

To the Members of the General Assembly.

Why has North Carolina been considered behind her sister States in progress, in almost all the departments of civilized life, Education, Agriculture, Mechanic Arts, &c? Whether or not it is true, that she is behind, is not the question, but whether she is so regarded. That she is so regarded cannot be denied, and that there is a cause, why it is so.

Under the British government, where little favor was shown to North Carolina, its early settlers felt the importance of education, and did what they could to promote it. Witness Queen's College at Charlotte. Subsequently, when our first Constitution was formed, it was ordained in that instrument, (Sect. 41.) That a school or schools *shall be* established by the Legislature for the convenient instruction of youth, with such salaries to the masters *paid by the public*, as may enable them to instruct at low prices; and all useful learning *shall be* duly encouraged and promoted in *one or more* Universities.

The Legislature then is bound, by the Constitution, to sustain the University. Now what has been done to fulfill this obligation? An appropriation of seven thousand dollars was made, a year ago, and that is all, as far as I have been informed, that the University has received in these troubled times, besides the tuition fees from its students. The neighboring States of Virginia and South Carolina, are sustaining their Universities by liberal *annual* appropriations from the Public Treasury. Why should not North Carolina be as wise and liberal?

It is said that we have several colleges in our State, and that they have an equal claim on the Legislature with the University. Surely no reasonable man can think so. The Legislature is bound by the Constitution to sustain the University. It is not so bound as to other colleges. These were built up, so far as that has been done, by different denominations of Christians, for their own private ends, and have no more claim on the Legislature for aid, than any of our public schools or academies thought for private profit or influence. In Virginia and South Carolina there are denominational colleges, yet we never hear of complaints in those States, because their Universities are sustained by the State Treasury. Neither should it be so in North Carolina. Surely every North Carolinian should desire to see our University among the very first in the land. To make it such, is in the power of the General Assembly.

The members of the General Assembly have the appointment of the Trustees of the University, and consequently the whole responsibility for the management of the University devolves ultimately on the Legislature. Hence, the importance of selecting suitable persons for so important a trust; and yet these appointments have generally been made of members of the Legislature without regard to their fitness.—Although removal from this office because of "improper conduct" is in the power of the Trustees, yet I have never heard of its being exercised, and that when some of the Trustees have never attended a meeting of the Board since their appointment.

The University has been treated as an orphan by the Legislature, almost from its very origin. Now what is the result? Does a diploma from the University of North Carolina give evidence of scholarship? We never hear of a teacher appending to his name "A. M. of the University of N. C.," as we do of the University of Virginia. Why is this? One answer is obvious, as suggested by the present experience. A certain number of students must be secured to raise from tuition fees a bare support for the faculty, and if qualified applicants cannot be had, such as apply must be received to make up the number. By remaining four years every student gets a diploma, although it is well known that a large number of the graduates cannot translate the diploma when they receive it. Now we may say that the trustees are to blame for permitting such a state of things. But it cannot be remedied until the Legislature affords the necessary aid for the support of the University, and appoint men as Trustees who will take a proper interest in the University.

It is said by some that the small number of cause of prejudice against some members of the present faculty. This may be true to a certain extent. If these prejudices are of a political character, we say they are simply absurd. A man's political opinions have nothing to do with the subjects taught at the University.—The simple question with regard to a Professor is—is he morally and mentally qualified for his chair? If he is not so qualified let him be removed. If he is, let him be sustained without regard to political opinions. We happen to be somewhat acquainted with most of the present faculty, and though we may not be a competent judge, yet we undertake to affirm that there are men in that faculty who would do honor to any institution of learning in Christendom.—Some of them have made sacrifices to sustain the University which few would make. But, after all, if the present faculty, either in part or in whole, is found or believed to be incompetent, let the remedy be applied, and suitable men appointed, and let such means be used as are necessary to secure the services of the best men. The salaries at Chapel Hill have never been adequate to the services rendered. *A good book keeper or salesman, in a mercantile house, commands a higher salary than a Professor in our University, however learned he may be.* In the University of North Carolina the salaries ought to be such as will secure the best efforts of the very highest abilities.

An opportunity is now presented of relieving the University in its impoverished condition, and that, too, without drawing on the public treasury. How can any legislator oppose this plan, unless he intends to propose one much more efficient? As long as the forty first section remains in our Constitution, the Legislature cannot, with a good conscience, permit the University to go down, when they have the power to prevent this catastophe. If we wish to see North Carolina elevated, and take the stand among her sister States which she is capable of taking, let the Legislature, and every patriot in the State, arouse and assist in placing the University in such a position, that it can command the respect and confidence of our people, and that we may point to it with pride as being as illustrious as any other, and that it may be a passport for scholarship, in any part of our country, to be a graduate of the University of North Carolina. If literature and the arts are ever to flourish in North Carolina, the University must be sustained, or we shall be dependent for these signs and means of civilization on our neighbors. It will be in vain to attempt to raise the lower schools and academies up to a proper standard of attainments without the aid of the University.—Knowledge never ascends. It always descends from above. Let the University be elevated and sustained, and as an inevitable result, all our schools and academies will be elevated with it and by it.

I have no connection with the University, and never have had. But I feel, as a citizen of North Carolina, a deep interest in its prosperity.

Guano and Plaster.

[From the Newberry (S. C.) Sentinel.

I take the liberty of addressing you on a subject of great importance and special interest to every farmer, viz: Guano and Plaster. There are many of our farmers that have not used it at all, or only in small quantities. We think when more experiments have been tested, and their advantages more generally understood, that their use will become more general. In this communication, I give the results of my own experiments for this and last year. I have tested them well. The spring of last year was wet; this spring I had no rain from the 16th of April to the 3d of July.

Guano and Plaster, (and they should be used together,) are valuable for every quality of land, but I think they are best upon a light sandy soil.

Before using Guano, pass it through a sieve, and break all the remaining lumps up. You can do this by putting it in a box or trough and using a maul. Then mix the Guano and Plaster, putting down alternately a layer of Guano and then of Plaster; (the Plaster will be ready to use from the Tierce,) add a little water and toss over and mix up, and it will, when thoroughly mixed be ready for use.

My cotton land is principally a light sandy soil. After preparing my compost as above described, putting from 80 to 125 lbs. Guano and from 40 to 60 lbs. Plaster to the acre, I run furrows as wide apart as I wish my rows to be, say from 32 to 36 inches, then I drill my compost of Guano and Plaster regular, and follow close after with plows, laying two furrows on the compost, covering it from two and a half to three inches deep. This is done about April 1st. It remains so until I am ready to plant my cotton, which is usually from the 8th to the 20th of April, at which time cotton should be in the ground, in order to make a good crop, experience teaching that the sooner we have a good stand and the cotton a good start, the greater will be the crop. Guano and Plaster are great stimuli for this purpose. They are excellent to start cotton in cold moist land. They hasten the maturing and ripening of the crop, not only of cotton but of all other crops on all kinds of land. Before drilling cotton seed, take from 10 to 20 lbs. of Plaster to the bushel rub the seed well in it, and your cotton will be more regularly drilled, will come up strong and long and grow off fine; use from two and a half to three bushels of seed to the acre; the failure of a stand often arising from the fact that not enough seed is sown. Rough land should be well broken up and put in good order before the compost is used. Never suffer green weeds to be growing when the cotton is planted.

Through the dry season, the cotton I had used the Guano and Plaster upon kept green and growing, while my other cotton was injured by the drought. It did equally as well the year previous.

For wheat, rye, barley and oats, use from 100 to 150 lbs. Guano and from 50 to 75 lbs. Plaster to the acre. The hands broad casting the compost, should follow close after the one sowing the grain, and the plows close after, so that all may be plowed in together. The compost should not be exposed to the sun. For corn cast it broad-cast as for wheat, or what is better, apply it to the hill. In planting corn, put about a tablespoonful of the compost one or two inches from the grain, and cover with the plow from one and a half to two inches deep. At the second plowing run a furrow close to the corn, drop about two tablespoonfuls of the compost opposite the corn, and let the plows burst out the middles over the compost. By soaking seed corn twelve hours in a decoction of Guano, Plaster and Salt-petre, you will not be troubled with crows or other birds.

The application of Guano and Plaster as above described, will give an increased yield of from 300 to 500 lbs. of cotton to the acre, an increase of from 10 to 15 bushels wheat or other small grain per acre.

There are three kinds of Guano; the Peruvian, Chilian and African. Peruvian is the best, and the kind I have used. I do not think it advisable to use ashes or lime with Guano.—Charcoal is excellent with it.

Messrs. Editors, I must close for want in the my brother farmers. [illegible] the last twenty five years, but there is still room for it. Whatever I can do to aid in its improvement, I will do cheerfully. When we use Guano and Plaster freely, we will cease hunting up the fertile valleys and rich lands of the far west, and we'll make old Carolina blossom as the rose. I must close, for fear I tire my brother farmers.

Messrs. Editors, you may hear from me again upon the culture of cotton.

JOHN P. KINARD.

NATIONAL BANKS.

In reply to a request of a National Bank depository to have moneys sent out of the natural channel of collection and deposit, the Secretary of the Treasury has replied that the policy of the department is to concentrate the public moneys as near as possible to assistant Treasurers of the United States, and keep them with such officers whenever practicable.

IMPEACHMENT WON'T PAY.

The chairman of the House Judicary Committee has authorized the statement that Congress will do nothing this session towards impeachment. The committee is busy closing up other investigations, including the alleged complicity of Jefferson Davis with the assassination conspiracy. If they get through in time they may take some testimony on impeachment for the purpose of laying it before the next Congress.

I feel warranted in saying that, inasmuch as the initiative has been formally taken in the House, Mr. Johnson desires that the investigation shall proceed; and so long as the impeachers pursue the Constitution and the law he will promptly respond to any charges that may be perferred against him. But nevertheless, any attempt to depose by irregular and manifestly illegal procedure will be resisted by all the power of the Government.

A proposition is on foot to build a new Custom House and Post Office in Newbern, N. C.

FERTILIZERS FOR SPRING CROPS.

WE beg to inform the trade and planters of North Carolina and Virginia, that we are prepared to furnish them with the most approved FERTILIZERS, on the most accommodating terms. We will have a stock of genuine PERUVIAN GUANO, purchased direct from the Agent of the Peruvian Government.

We have now in store, for immediate delivery, 325 tons BRADLEY'S SUPER PHOSPHATE OF LIME, which won for itself such an enviable reputation in the Cotton and Tobacco counties of North Carolina and Virginia, last season, proving itself equal, and in many important respects, superior to the Peruvian Guano. We give an analysis of it as ascertained by Dr. Hayes, one of the most eminent Chemists in the country:

Results of Analyses Made of Bradley's Patent Super-Phosphate of Lime, as now sold by Wm. L. Bradley.

100 PARTS CONSIST OF	
Moisture	5.30
Prepared animal matter, salts of Ammonia, fatty substances and Humus	38.50
Bone Phosphates of Lime, Magnesia and Iron (soluble Phosphates of do. 16 6-10.)	36.80
Sulphate of Lime	16.50
Salts	20
Insoluble	2.60
	99.90

The animal matter afforded 4 2-10 parts of Ammonia when it was decomposed, and, as will be seen, nearly one-half of the Bone Phosphate is soluble.

After many analyses of your Super-Phosphate of Lime, made during the last few months, I have found your standard of quality full equal to that of any you have ever sold in former years; and I am satisfied that you include the correct principles in the manufacture. Respectfully,

A. A. HAYES, M. D., State Assayer.

We refer to the following gentlemen who tested its merits last season:

Mr. Cameron becomes the editor of the *Index* and Mr. Sykes the business manager. Mr. Cameron is an excellent writer and has much experience, and will sustain well the reputation of the *Index*.

Messrs. Keiley and Branch have bought each a third interest in the Richmond *Examiner*, and have become joint proprietors with Mr. Wynne, the late sole proprietor. Mr. Keiley becomes the editor of the *Examiner*. He is one of the most sprightly and able editors of the Virginia press. We wish both papers eminent success.

Spring Wheat from Russia for Distribution.

The Commissioner of Agriculture is in receipt, per late steamer from Europe, of a large quantity of the celebrated Amantaka (spring) wheat, from Odessa, Russia, imported by the Department for distribution among the agriculturists of such sections of the country as successfully cultivate spring wheat. The weight of this grain is about sixty-five pounds, and its superiority has been tested during the past season on the experimental farm of the Department. It will be distributed with the assurance that its general introduction will prove of great benefit to the wheat growing interests of the United States.—*Nat. Intelligencer.*

We hope that the planters of North Carolina will procure some of this wheat. No portion of the Union raises better wheat than North Carolina [illegible] quality North Carolina flour

WASHINGTON MATTERS.

The Impeachment of President Johnson—Senatorial Speeches—The President's Apologists.

Correspondence of the Baltimore Gazette.

WASHINGTON, January 20, 1867.—That it is the firm purpose of the destructives in Congress to drag Andrew Johnson from the Executive chair, can no longer be doubted by sensible men. The Government cannot be otherwise overthrown—except through this means the Supreme Court cannot be reached—neither can the existing State governments at the South be in any other way substituted by satrapies appointed by Congress. To enable the revolutionists to accomplish their ends, *such a movement is indispensable.* The impeachment and trial, as is plainly indicated, will be the merest mockery. I believe it was Legendre, who in reply to a question as to the justice of condemning Danton, asked, in turn, if the Jacobins could afford to lose Robespiere, and upon being responded to, that the bloody work marked out by the revolutionists could not be accomplished without the aid of the latter, coolly told his questioner that he had answered his own interrogatory. "It is a matter," said he, "with which neither law nor justice has anything to do. It is purely a political question of State necessity."

Although this is precisely the case with the impending impeachment, the managers, I learn, will not dispense with their accustomed jugglery. The plan is, through the Judiciary committee, to collect from witnesses of the type of Conover a mass of calumnies against the President, and spread them broadcast over the country in a report to be drawn up by Bontwell after the fashion of his infamous array of falsehoods and distorted facts in the case of Davis. This is to prepare the way by operating upon the credulity of the public for the advent of Butler on the 5th of March, who will predicate his promised articles of impeachment upon the evidence thus elicited. No doubt seems to exist but that through the accessions to the destructive element by the late changes in members of the Senate, and from the reinforcement of four additional senators *of the right stripe* from Nebraska and Colorado, that that body will then be in a proper condition to proceed to the trial, and fully prepared *promptly to render the required judgment.*

From what is daily transpiring no one need doubt that the case is already prejudged. The speech of Sumner last week affords positive proof of this, and the subdued tone of those who essayed to answer him gives melancholy evidence of a timidity wholly unsuited to the momentous stake at issue. Indeed, the President is truly unfortunate in his defenders at this great crisis. Instead of manfully repelling the aggressions of bad men who openly avow revolutionary purposes, and thus carrying "the war into Africa," its legitimate theatre, gentlemen seem contented to *palliate* acts which not only need no defence, but for which the President will finally receive the undying gratitude of every lover of constitutional law and public liberty.

LIFE INSURANCE.

MANY insure their lives because they see the folly of neglecting to do so. Many who do not insure, argue that it is folly to insure. Which is right? If those who do not insure can cite instances of the harm done by a policy of life Insurance, if they can point out men who have lost $5,000 to $100,000 by Life Insurance, then upon proof of same, we must believe them. Hundreds of instances can readily be shown where parties have been benefitted to this extent.—In North Carolina there are some Widows and Children ready to testify to the good resulting from a life Insurance on their only earthly dependence.

The "Ætna Life Co., in loosing $23,000 the past year has relieved want—and now with over $4,000,000 of assets—offers sure protection to all those who will avail themselves of her liberal terms, by calling on

1867. "THE WORLD" 1867.

THE ATTENTION OF THE PUBLIC IS INVITED to the claims of "THE WORLD" as one of the leading public journals of the country.

It is the chief organ of the Democratic Party of the United States, and the foremost advocate of the immediate restoration of the Union. Its highest merit consists in its character as

An enterprising and Trustworthy Newspaper.

The next year bids fair to be a more critical one in the history of our free institutions, than even any of the eventful ones that have preceded it. The first requisite for an intelligent judgment of public affairs is a full and authentic account of facts as they transpire. These THE WORLD always aims to give with conscientious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interest, is the first duty of a newspaper, and the facilities of THE WORLD for discharging this obligation are unsurpassed by those of any journal in the United States. Whatever else it may fail in, it certainly will not fail to furnish the news, nor to supply it with such promptitude, spirit, freshness, abundance, variety, accuracy, and candor, that no class of readers can miss anything of interest which they wish to find. THE WORLD will publish documents and arguments prepared by political foes just as freely as those prepared by political friends; making its own comments on them, of course, but never suppressing or garbling them because they are calculated to damage its own party. Adverse arguments which it cannot refute, it is content to leave to make their full impression. THE WORLD adopts this rule because it believes no other is honest; because it conceives that its first duty to its readers is to keep them thoroughly informed on every passing subject of importance.

Our Thursday Morning Dispatches.

Impeachment.

WASHINGTON, Jan. 23.

A prominent republican member of the House in a recent letter to a friend says, touching the Impeachment business: My own objection is and has been that it will amount to nothing. All the reports that the Judiciary committee have taken evidence bearing hard on the President are false. Not a single witness has been examined and the committee are proceeding very cautiously.

Congress.

In the House the Republicans who voted against Boutwell's bill are Messrs. Hall, Latham, McLure, and Stillwell.

The Judiciary Committee reported adversely to the bill regulating the time and manner of electing U. S. Senators.

The bill limiting the time for filing claims in the Court of Claims to six years, passed.

Two hours were consumed in hearing excuses &c., of those absent last night without leave.

The bill providing for a successor to the Presidential office was taken up, discussed and ordered to be printed and referred to the Judiciary Committee.

The *Times* says that since November, leading politicians North and South, Republicans, Democrats and Ex-Confed's alike, have been working upon a plan of conciliation between the North and South, and the Executive and Congress.—Suffrage and amnesty form the base of the proposition. For instance, South Carolina will adopt Massachusetts suffrage, and the President will issue amnesty to South Carolina. And under Massachusetts suffrage, South Carolina will elect loyal representatives, and Congress will determine their admission. The Administration is seriously considering the proposition.

Sayings of Great Men.

From the LaCrosse Democrat.

Good little boys at school should always have as incentives to become good and great, the sayings of great and good men, who have passed from earth to their home, wherever that home may be. As there are many good little boys in the land, we take pains to give them the last words of some great Republicans, who alone are good, great, moral, virtuous, patriotic and law-abiding:

"I am a law-abiding man!"—*John Brown* as he hung—as he hung.

"He died by the well."—*Jim Lane.*

"Watches and spoons."—*Brute Butler.*

"That reminds me of a little story!"—*Honorable Abraham Lincoln.*

"Let me kiss him for his mother."—*Anna Dickinson.* Speaking of Fred. Douglass.

"Keep your choler."—*Banks,* to Dick Taylor.

"Cotton is King."—*Gen. Curtis.*

"Let my last end be like his."—*Mass Morton.*

"A wench by any other name would smell as sweet."—*Thad. Stevens.*

"With the still in spirit."—*Dick Yates.*

"A thousand miles in hell."—*Rev. Gov. Brownlow.*

"Who's pin here since I'sh pin gone?"—*Hillsteeker Snicksnacker.*

ADDENDA.

"The last man and the last dollar."—*Holden.*

"The Union men are persecuted, when they are charged with advocating negro suffrage."—*Blythe.*

"Fish for the army."—*Fost Taylord.*

"If North Carolina does not secede, I'll leave the State."—*E. T. Blair.*

PERUVIAN GUANO SUBSTITUTE!

BAUGH'S

RAW BONE SUPER-PHOSPHATE OF

Manufactured under the formula originated in 1854 and patented by

BAUGH & SONS,

SOLE PROPRIETORS, AT THE

Delaware River Chemical Works,

PHILADELPHIA, U. S. A.

This old established MANURE is manufactured from Bones that have not been burned or steamed, and it contains all their original organic matter. It is active in its operation, and is a fertilizer of great durability. It does not exhaust the soil like Peruvian Guano; but on the contrary permanently improves it.

Previous to 1861 it was introduced into the Southern States to considerable extent, and again in 1865, where it has been used with remarkable success upon

Cotton, Corn, Tobacco, and all Crops.

A trial will convince any planter of its merits.—Pamphlets containing well-known Southern evidence furnished upon application to New York or Philadelphia offices.

☞ Sold by Dealers in all the principal cities and towns throughout the United States and British Provinces.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. Professor of Mathematics, Civil and Military Engineering, Architecture, Topographical and Industrial Drawing, and Assistant Instructor of Infantry tactics, Maj. W. A.
